Dear Parents,

On Monday 20 August and Tuesday 21 August your child will take part in a two day water safety program. Children will be completing the program at Bialik College (407 Tooronga Road, East Hawthorn) and will travel by bus. We run this program every second year so the children in grades 5 & 6 will have been involved in a water safety program at least once in their primary years.

The cost to cover the program including pool hire, instructors and buses has not yet been finalised, but please be aware that a permission slip will go home early next term.

Students who have not participated in this program before have a survey to complete. It would be greatly appreciated if you could please have this completed and returned to school by Thursday 28 June.

Swimming programs are a compulsory component of the curriculum at all State Schools in Victoria. If you have any concerns with the program or you wish for your child not to participate then please give your reason in writing to your classroom teacher.

Regards

Andrew Cavell
