Dear Parents,

We are excited to be involved in Jeans for Genes Day on Friday 3rd August, when our school, like many around Australia, will be awash with denim in a united stance against childhood disease.

Please make sure your child is wearing their favourite pair of jeans and brings a gold coin donation on the day.

One in 20 kids is born with a genetic disease or congenital abnormality. By getting involved in Jeans for Genes Day, we are helping scientists at Children’s Medical Research Institute to unravel the cures to a range of childhood medical conditions – for the benefit of children everywhere.

If you would like more information please visit jeansforgenes.org.au

Sincerely,

Miss Tomic

Well Being Co-ordinator
