On Friday the 20th of May it is **National Walk Safely to School Day**. This day encourages kids to be physically active as well as help protect the environment.

Please note that due to a Grade 1 excursion on this day, the Grade 1s will Walk Safely to School on Thursday the 19th of May. Their stickers will be distributed to each Grade 1 class during the day.

274 students actively travelled to school on the 'Get to School Cool Day' last term, we hope to have even more this time!

Students who walk safely to school on this day will receive a sticker at the gates. The class who has the highest percentage of students who have walked to school that day will get a cool prize.

Thank-you,

The Environment Team.
