PREP Perceptual Motor Program (PMP)

Information Session

Dear Prep Parents,

Beginning Term two is the Perceptual Motor Program (PMP). PMP is a movement based program which helps students improve their eye/hand and eye/foot coordination, fitness, balance, locomotion and eye tracking skills. It uses plenty of equipment and focuses on engaging the students in semi-intensive activities. As there are many types of equipment being used, each week we require at least eight parents across all of prep classes for the program to run. Any younger siblings are also very welcome to join in.

We will be running an information session outlining the value of this program, details are as follows:

INFORMATION SESSION

WHEN: 2.40pm – 3.30pm Tuesday 5\textsuperscript{th} April

WHERE: Multi-purpose Room

The preps will begin this program on Tuesday 3\textsuperscript{rd} May from 2.30pm until 3.30pm and this will continue until the end of the year. All Prep classes will be involved and we ask that all parents make themselves available for at least one session each term. If you do get involved, you will find this fun for you and your child.

To find out more information please visit the Glen Iris Website or contact the office.

If you have any further questions please email the school or contact Mr Cavell.

Regards,

Andrew Cavell
