Stories of our Elders

The Lego Robotics Team needs to make a presentation about Senior issues and we have decided after talking to Bruce Nation, a Kids’ Hope Mentor, that older people love to be ‘heard’ and tell their stories.

We need some stories from our grandparents about their adventures/childhood (500 words or less!) that we can publish on our website.

Have you got a story that you can tell us? Send the stories to:

glen.iris.ps@edumail.vic.gov.au

Please include permission to publish on the website and we will print your first name after it.

Lego Robotics Team

ICT Conference

ICT Conference - Computer LAB

9.30am-10.30am Thursday 22 November

Parents are invited to attend our student-led ICT Conference organised by the SALT ICT Team to showcase how we are integrating digital technologies into the curriculum. Students will talk about the technologies used in their classes and Robyn Floyd will give an overview of the school vision for ICT.

If you are attending please complete the following and return to the office.

Name: .................................................................

I will / will not be bringing a toddler that requires babysitting.
