

## WHAT'S BEEN HAPPENING

Hello everyone!

We have kept ourselves very busy at TeamKids as we continue to travel around the world in culture club and trying different sweet and savoury foods in cooking club (all homemade of course!). We have had a special guitar performance from one of the students, he played the national anthem and one of his favourite songs! It has all been a blast.

We learnt last week about the importance of recycling and upcycling when we used all of our old recycled materials as part of our arts and craft activities. We use higher order thinking when we are involved and conducting science experiments that are super cool, and thinking about what might happen and why we think it does.

We have big things coming with the kids help to make the program even more fun . If you would like to get in on it get booking so you don't miss out!

Cheers,  
Maria & Anastasia

## IMPORTANT DATES

### NEXT WEEK

Continue end of year party planning

## TEAMKIDS CLUBS

ASC WEEK: 1-8

### MONDAY

STEM Club

### TUESDAY

Culture Club

### WEDNESDAY

Cooking Club

### THURSDAY

Sustainability Club

### FRIDAY

Epic Games
